Robust One-Hand-Earphone with optimized frequency range, completely built of aluminum and stainless steel. Mounting plate with integrated pick up switch.

Frequency Response	150 - 20.000 Hz
Rated Power	4 Watt
Music Load	10 Watt
Impedance	4 Ohm
Limitation Circuit	yes, electronically
Average Sound Pressure Level	84 dB (1W/1m)
Resonance Frequency	250 Hz
Material	stainless steel and aluminum
Connecting Cable	armored cable, length 900 mm (other length please fill in)
Temperature Range	- 25 °C up to + 70 °C
Connecting Cable Audio	length approx. 200 cm
Connecting Cable Control Output	length approx. 200 cm, 2pole
Contact closed	=> earpiece removed
Contact open	=> earpiece in bracket
Size	diameter handset 77 mm height handset 47 mm diameter station 98 mm height station 20 mm
Weight	handset approx. 350 grams wall mount/cable approx. 380 grams
